MEMORANDUM FOR:

The Honorable Henry A. Kissinger
Assistant to the President for
National Security Affairs

SUBJECT:

Cambodia

Attached is a set of suggestions written in response to your request at the WSAG meeting of 23 February 1973 for ideas on what might be done to improve the situation in Cambodia. The paper was written by [redacted] Chief of the Far East Division, DDP, and reviewed and slightly modified by Messrs. Colby and Carver. It represents a somewhat changed pattern in our approach to the Cambodian problem at the cost mainly of a slightly higher profile than at present. These suggestions obviously need fleshing out and further study. We would be happy to participate in any effort you wish to undertake in this direction.
